

Complete to ISSA TB 139. With Air Pressure Regulator, PSI/KPA gauge, Direction Control, Adjustable Cylinder Speed Control Valves, 35 KG-CM Torque Wrench with follow up pointer, 5 each of 6mm and 10mm x 60mm Molds, Grit Calibration Paper, Ottawa Calibration Sand, 100 sheets of 100x100mm felt, Spare foot and Air Hose Jack.

Basic Manual Cohesion Tester

Complete per ISSA TB 109 & 147A. Includes Single Reciprocating Wheel for Traffic Count Design, Measurement of Excess Bitumen and Multi-layer Rutting Potential, complete with 20, 24 gauge mounting plaques (.125", .188", .250", .313", .365" and .500" x 2" x 15" molds), Sand Frame and Cover. .25HP 115/120VAC, 60Hz Motor

Also Available with .33HP 230VAC, 50Hz

Loaded Wheel Tester

**Complete ISSA TB100.
Modified Hobart N-50,
5 quart Mixer includes
Quick Clamp Mounting
Base, Spun Aluminum
Pan, Special Design
Quick Change Abrasion
Head, Raised Lip
Specimen Mold (1/4"),
Strike Off Dowel and
Squeegee, 10 pieces of
5" precut Parker 3292
Abrasion Hose, 10
pieces of 12"x12" 30-
pound Roofing Felt**

**Available in 115/230
VAC 50/60Hz**

Wet Track Abrasion Test Machine

**Aggregate, Filler
Bitumen compatibility
(ISSA TB144) tumbling
pill abrasion test
machine. Includes 4
pairs (8) tumbling
shuttle cylinders.
115/230VAC, 60Hz or
230V/50Hz Operation**

**Also available to
perform test:**

**40 gram pill molds (ram,
case and base)**

**Constant Force
Pneumatic Pill Press; Up
to 2 ton Capacity**

**Ruck Adhesion and
Integrity Procedure
Baskets**

Schulze-Breuer Test Machine

**Laboratory Emulsion
Colloidal Mill, Adjustable
Concentric Waffle Grid
Rotor and Stator, 6"
diameter, 1-liter batch, 2
HP. Includes 2 liter
Stainless Steel Tank,
Thermometer, Pipe,
Valves, and Base Plate**

Emulsion Mill

**Low Temperature
Flexural Tension Tester
(ISSA TB146), Uses
compacted Loaded Wheel
Tester specimen.
Forward-Off-Reverse
Operation @ 20mmpm.
Slip Nut, Quick Manual
Return. Fits in most
American refrigerators.**

**Available in 115/230 VAC
50/60Hz**

Flexural Tension Tester

Wheel Track Test Machine ("Triple Track") ISSA TB 147B. Adjustable moving bed (10", 12", 15" stroke), 3 individually controlled pneumatically loaded, interchangeable wheels (1" LWT, 2" TRRL, concave grits wheel and 3 positions) for running 3 simultaneous tests on multiplayer slurry 9 or hot mix with listed accessories). The 22" moving bed can also accommodate 2, 6" x 6" fatigue beams with manual in service displacement measurement. 1 HP, 110/220V, 60 Hz

Triple Track Test Machine

Also available with
220VAC/50Hz
